

LINDER HEALTH POLITE PEEL NANOFACIAL

1. **DOUBLE CLEANSE:** Apply **Stellar Cleanser** to treatment area; gently massage the skin to thoroughly cleanse. Rinse with tepid water. Apply **Stellar Cleanser** to treatment area; emulsify with NanoCleansing Brushes. Rinse with tepid water and thoroughly and pat dry.
2. **EXFOLIATE:** Apply **Prep-Work** to the treatment area with cotton or gauze to remove any residual sebum and allow for optimal exfoliation. More sensitive skin types may experience stimulation with **Prep-Work**.
3. **REGENERATE:** Apply **HA Pep Smoothing Intensifier** as your infusion serum. Perform the Rezenerate portion of the NanoFacial as detailed in your RAP Manual, applying HyRez Glide as your slip serum in small sections as you perform the infusion.
4. **PREP:** Apply **Prep-Work** to the treatment area with cotton or gauze to remove any residual serum. More sensitive skin types may experience stimulation with **Prep-Work**.
5. **PEEL:** Apply a layer of **Polite Peel** using cotton, gauze or a brush, assessing visible and perceived inflammation. Fan to keep the patient comfortable. DO NOT REMOVE. Allow to sit for 3 – 5 minutes.
6. **MASK & NANOGLOBE :** Apply **Rezenerate Face Mask** for 10 – 15 minutes. Perform the Rezenerate NanoGlobe 'Zen' massage portion of NanoFacial as detailed in your RAP Manual, over the mask. Once complete, remove mask.
7. **MOISTURIZE:** Apply **Lustre Nourishing Moisture** to soothe the skin and reduce inflammation.
8. **PROTECT:** Apply **CastAway Broad Spectrum SPF 30** to protect the skin and filter UV rays.

Best wishes, Team Rezenerate!

* Rezenerate is 'Product Neutral' and does not promote or endorse any specific product line. The above protocol was created and endorsed by a Rezenerate user like you to be shared with their fellow RAPs. Rezenerate itself has not necessarily performed the protocol and, as always, asks that you rely on your expertise as a skin care professional when determining what products are best to use on your clients.
