

RENEW UPLIFT TECHNIQUE

Renew Dermal Solution features patent pending peel and post treatment formulas that redefine the way professional practitioners provide chemical peel services. When performed using the Renew Uplift Technique, you and your clients will visibly see immediate lifting and tightening of the skin, face and the muscles beneath.

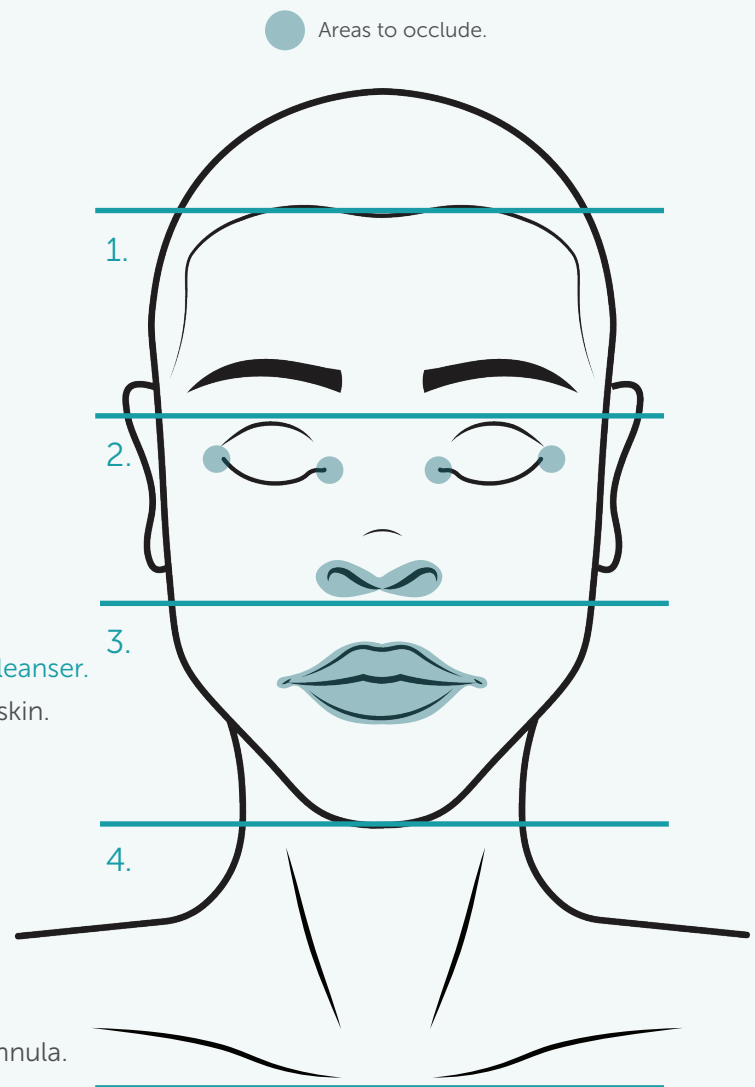

Combine this effective and easy to tolerate in-office procedure with the massaging action of the Renew Uplift Technique and watch as your clients face changes before your eyes. You can finally say goodbye to unattractive peeling, skin discomfort, and photosensitivity as your clients embark on a journey towards flawless, youthful skin.

MATERIALS NEEDED:

- + FACTORFIVE RDS1 Penetrating Solution
(2 cc's for the face, 1 cc's for the neck if applicable)
- + FACTORFIVE Gentle Gel Cleanser
- + FACTORFIVE RDS2 Calming Solution (6-8 pumps)
- + FACTORFIVE 7 Day Post Treatment Kit
- + Optional FACTORFIVE Growth Factor Mask (up charge)
- + 3 mL syringes
- + 18 gauge needle
- + Cannula
- + Alcohol or degreaser
- + 4x4 gauze
- + Disposable gloves (nitrile gloves only)

PREPARATION:

1. Cleanse the face thoroughly using [FACTORFIVE Gentle Gel Cleanser](#).
2. Use alcohol or degreaser to further cleanse and disinfect the skin.
3. Occlude the nostrils, lips, and corners of the eyes.
4. Completely occlude any tattoos or microbladed areas as the procedure can lift pigment.
5. Puncture the stopper of [RDS1 Penetrating Solution](#) with a cannula to allow all gas to exit the vial.
6. Using your 18 gauge needle, draw up 2-2.5 cc of [RDS1 Penetrating Solution](#).
7. Remove the 18 gauge needle from the syringe, and attach cannula.
8. Mentally divide the face into three quadrants with the neck being an optional 4th.

STEP 1: RDS1 PENETRATING SOLUTION

FOREHEAD APPLICATION:

1. Apply 1-2 drops of the [RDS1 Penetrating Solution](#) onto the middle of the forehead near the glabella.
2. Using firm pressure for application, apply [RDS1](#) in a swooping motion across the forehead. Perform until the product no longer moves easily and becomes slightly tacky.
3. Perform spot check, examine the skin for any signs of adverse reactions or frosting.
4. If either are observed, neutralize the peel, and stop treatment.
5. Repeat 1-3 for a total of three layers.
6. Cover each section of the face before moving to the next.

CHEEKBONE APPLICATION:

1. Perform a second spot check.
2. Apply 1-2 drops of the [RDS1](#).
3. Use your thumbs and fingers to shape and contour the cheekbone all the way up.
4. Repeat 1-3 for a total of three layers.
5. Using a gloved finger, apply underneath the orbital rim, and around the eyelids.

JAW & CHIN APPLICATION:

1. Drop [RDS1](#) along the side of the jaw and the chin.
2. Contour with your thumbs and forefingers under the chin, pulling upwards with firm pressure.
3. Move from the jawline to the mandible, up to the ear.
4. Repeat 1-3 for a total of three layers.
5. Cover each section of the face before moving to the next.

VERTICAL LIP LINE APPLICATION:

1. Apply 1 droplet of [RDS1](#) directly on to your gloved finger.
2. Apply to vertical lip lines staying away from the lip itself.

NECK APPLICATION (OPTIONAL):

1. Start at the collarbone.
2. Apply [RDS1](#) and pull upwards using your knuckles.
3. Repeat 1-2 for a total of three layers.

NEUTRALIZATION:

1. Neutralize the peel using 4x4 gauze with cool water to wipe off any stickiness.
2. Using fresh gauze, dry the face fully.
3. Dispose of the gauze and change gloves.

STEP 2: RDS2 CALMING SOLUTION

CALM THE SKIN:

1. Apply 6-8 pumps of [RDS2 Calming Solution](#) over treated areas.
2. **Optional:** Place the [Growth Factor Facial Mask](#) from the [7 Day Post Treatment Kit](#) on the face, then remove it after the designated time.
For an additional fee, apply a separate mask, allowing the client to use the 7 Day Post Treatment Kit Mask that evening or the next day.
3. Apply SPF to the treated area.

NEXT STEPS: POST TREATMENT

FOLLOWING TREATMENT:

1. Provide the client with a [7 Day Post Treatment Kit](#).
2. Advise client to avoid sweating or exercise for 24 hours following treatment.
3. Schedule their next 3-5 treatments with 7-10 days in between each treatment.

WHAT TO EXPECT:

- + Next day: expect the face to feel tight.
- + Days 3-7: skin can feel dry and flaky. Reapply [Post Treatment Serum](#) or [Nourishing Silk](#) as needed from the [7 Day Post Treatment Kit](#).
