Cost Per
Treatment:
\$36.82

Pro-Tips:

When preparing clients to receive The Boost, it is advised to have the client using Resurfacing Elixir for a min of 2-4 weeks prior to receiving this treatment.

The skin needs to be exfoliated prior to applying The Boost. You can use any of the Sorella Chemical Peel Collection in place of Mint Poppy Seed Polish or any exfoliant if the skin has been properly prepared with Lemon Lightening for 2-4 weeks prior.

This is a professional treatment and even though the skin will not feel as if it has had a peel the skin must still be treated and cared for as if were any other chemical peel.

TREATMENT PROTOCOL

Cleanse	Cleanse with Apricot Mango Cleansing Milk and remove with warm towel. Perform second cleanse with Lychee Willow Bark Deep Clean and remove with warm towel.
Tone	Spray Spiced Wine Toner onto cotton pads and wipe to remove excess cleanser and impurities.
Exfoliate & Body Massage	Gently massage Mint Poppy Seed Polish into the skin for 1 minute and allow to sit for 8-10 minutes. Remove with a warm towel. If eco beads are still present, dry the skin and gently dust off. While mask sits, perform shoulder, arm, and hand massage using Body Balm. For an added barrier boost layer Body Nectar over the top
Prep	Dispense The Prep onto cotton pads and thoroughly apply to the face, neck, and décolleté to remove any excess impurities and degrease the skin.
Occlude & Protect	Apply a thin layer of Rehab Recovery Mask to occlude the eye area, apply Avocado Oil Lip Hydrator to the lips and around the nose to provide hydration and protection prior to the application of the The Boost.
Non- Acid Peel	Apply a generous layer of The Boost and spread evenly over the skin. Gently massage until fully absorbed. *1 full tube for face, neck, and décolleté.
Protect	Apply Quench and Protect SPF 30 and press into skin until fully absorbed.
Lips	Apply Avocado Oil Lip Hydrator to the lips to finish the facial.
